Physicians' Prescriptions Our Specialty

We lay stress upon our prescription work, and as a result we compound the prescriptions of all the physicians in this locality. Our store is sort of a prescription center for the reason that we have an exceptional stock of drugs, and employ only registered pharmacists of ample experience.

You should consider all of our prescriptions and recipes of sufficient importance to justify the special care which we are able to give them.

Let us fill your Next Prescription

We are in a position to refill any of Mr. D. F. Davis' prescriptions.

At Our Soda Fountain

These hot days create a demand for "thirst quencher." You are not satisfied with drinks that are merely "wet" and lack the sparkle and vim which makes a drink worth while.

At our fountain you get soda of the right degree of sweetness and coldness and of just the right flavor.

Try your favorite drink as it is served at our fountain.

Twelve horses were required to haul "Jack's lunch" building from its temporary site on North Main street to Hooker flats this morning. The work was done soon after daybreak in order to interfere as little as possible with traffic. The transfer was accomplished with a minimum of difficulty on a pair of long shoes. Midway of the Granite street hill came the first hard tug, but the dozen on ahead were equal to the pull and the little structure reached the flats intact. It will be used as a domicile for poultry.

SPORTING NOTES.

Lee Magee, although a natural left-handed batter, can hit some from the other side. During the recent Braves' series he shifted from the left to the right and secured a couple of singles off the great George Tyler.

The injuries received by Joe Boehling, the star pitcher of the Senators, are still evident. Boehling hurt his knee several weeks ago and since has not been able to perform his best.

Rowe Morrison of Chicago, a representative of the Harrison Granite Co., arrived in the city to-day to make a visit at the home of his brother, Norman Morrison of Hill street.

Frank Knowles of Northfield, who has been the guest of Mr. and Mrs. C. B. Tilden of Prospect street while attending the veterans' reunion at Dewey park, went this morning to Randolph to participate in a joint gathering of G. A. R. men.

Mr. and Mrs. Roy Bugbee of Richardson street, who have been spending the past few weeks at Springfield, Mass., returned to the city yesterday. Mr. Bugbee will resume his duties at the federal building this week.

Ronald Anderson, who has been the guest of George Adie of Franklin street for the past few weeks, left to-day for his home at Baltimore, Md. He was accompanied by his sister, Miss Minnie Anderson, who has been the guest of Mr. and Mrs. James S. Milne of Liberty street for the past few weeks.

The first of a series of dances to be held during the summer months at the close of concerts rendered by the Barre band was conducted in the Howland hall last evening. There were about fifty couples present. The Riley orchestra furnished music for the dancing. Refreshments were served at intermission. Thomas Davidson and William Johnston left to-day by automobile for Littleton, N. H., where they will play with the St. Johnsbury team in the game against Littleton, N. H., to-day. Earl Williams and John Clare, members of the Italian team, left yesterday for St. Johnsbury. They will also appear in the line-up of the St. Johnsbury team.

After acting as Barre agent for the wholesale monumental firm of Townsend, Townsend & Co., Alexander H. Gerhardt will complete his local duties this week, to assume a position as salesman for the same concern, with his headquarters at Mansfield, O. He will leave Barre early next week to join Mrs. Gerhardt, who has been visiting at her former home in Indianapolis, Ind., for several months.

Among those who registered at the Buzzell hotel yesterday were: A. R. Stevens, Lawrence, Mass.; I. L. Campbell, Boston; George A. Balch, Lunenburg; K. W. Morse, Hartford, Conn.; A. Batellino, Ithaca, N. Y.; C. C. Nathan, New York; W. S. Swallow, Burlington; W. L. Bowser, Boston; L. H. O'Brien, Portland Light, Me.; W. Waters, Lebanon, N. H.; L. E. Douglass, Burlington.

George E. Hooker, a prominent Chicago business man and a brother of B. W. Hooker of Park street, is one of the Americans marooned in Europe by hostilities in progress and in prospect. Around July 15 Mr. Hooker, whose acquaintance is wide in Barre and vicinity, left with a party of eleven Chicago men who form a commission appointed by Mayor Carter Harrison to study European railroad terminals with a view to solving some of the pressing traffic problems in the Windy city. In the party is Walter Fisher, formerly a cabinet member. The commission planned to be absent around six weeks and according to their itinerary they were due in Berlin this week. With instructions to make a careful study of continental terminus systems, the commission had planned to visit such of the larger railroad centers as time would allow.

The third game of the series between the Barre A. C. and the Italian A. C. to decide the city championship will be played at the Berlin street grounds on Saturday. The first two games resulted in victories for the Italian team, the first in an exciting game and the latter in a poor exhibition of baseball. The Italian team will present the same lineup, with Weiser and Comolli in the points. Fowlie will catch for the Barre club, but the selection of the pitcher is problematic. Davidson, the regular pitcher, cast his fortunes with the St. Johnsbury team and is likely to be in no condition for Saturday's game. The Barre management is negotiating for the services of some first-class heavier to perform against the Italians. The Berlin street grounds, which were occupied last week by the Hall and Lattip shows, have been worked over, by the Italian management and are to-day in better shape than ever.

TWO FIRMS TO MOVE.

Barre Book Store and Holmes Jewelry Store to Bolster Building.

After Aug. 15 the Barre Book store and Holmes' jewelry store will be located in the Bolster block just north of the Miles building. This change in the location of two important mercantile concerns was announced to-day and preparations for remodeling the new quarters will be started Monday. Since fire threatened the destruction of the Gordon block last month, negotiations for a change of location have been going on. It is reported on good authority that the N. D. Phelps Co. is considering seriously a proposal to occupy practically every square inch of space on the ground floor.

It is significant that all three changes contemplated are made because of a desire for larger quarters. In 1900 E. O. Holmes established his jewelry store and Charles A. Smith opened a book store and news agency in the same store. Ten years ago C. W. Martin purchased Mr. Smith's interests in the store and since 1904 the store has been used jointly, although each business has been owned and carried on separately. In changing to the more spacious quarters in the Bolster building, Messrs. Holmes and Martin grasp an opportunity to enlarge their mercantile interests in two lines that have grown in recent years. Both men have established reputations for fair dealings in their respective lines and their present policy will be continued.

Whether the Phelps company will decide to lease the space to be vacated by Holmes and Martin is yet to be decided. Already the company occupies a large area of floor space, but there is a constant demand for more room and it is considered likely that this step will be taken immediately.

CITY WATER NORMAL.

Comes Report to Health Officer Woodruff from State Laboratory.

Health Officer Dr. J. H. Woodruff received returns to-day from a sample of city water which he submitted for analysis a short time ago. At the state laboratory of hygiene in Burlington, the sample, drawn at random from a tap in the city, was found to be normal. The laboratory, it is interesting to note, designates "normal" water in the reassuring words: "Pure or normal water, one which is not poisoned, infected, contaminated, befoiled, and is practically unstrained, uncolored, untainted, as well as unimpregnated with noticeable amounts of objectionable chemical salts."
